Second Entry...

Well here is my second entry. So much to say too. Well firstly, I have finally worked with Mia Michaels…oh my god!!! The routine is sooo cool. Really quirky and left of centre. She is titling it ‘Jack out of the box’. She has been such an awesome choreographer and person to work with. She is very happy with me thankfully, and says sorry to Australia but jack is staying here in america - so glad that she is happy with me. That’s probably the one thing I was worrying about, whether or not she would be happy with me. J So fingers crossed for the Carnival!!!

My tourist hat as made another appearance as I went on a tour bus, to see the beaches, rodeo drive and celebrity houses. It was fun, it was good to see more of LA….cause its so spread out here that unless you have a car, your not going to see a lot. I also went and had lunch/dinner at ‘Chateau Marmont’. Which is like a celebrity hideaway. As I was eating, Britney Murphy sat down at the table next to me, and shortly after Roasario Dawson made an appearance, as well as Heather Graham and Lara Flynn Boyle. So that was very exciting!!!! I didn’t go say hi, because it isn’t really what you do, everyone just notices that a celebrity is in the room and leaves it at that!! J I also did some shopping the other day on Melrose Avenue. Now that is a long street full of shops. Bought a lot of stuff, so lets just say that I am not buying anything else here in LA…otherwise I will need another suitcase for the trip home…and to think I still have New York to go to ;)

I will be meeting up with Nigel Lythgoe tomorrow - which will be good. I am making a big effort at meeting as many people in the industry as I can, since networking is so important. Well I guess not as much stuff to say as I thought. Oh well, I shall leave it at that then. Take care everyone, til next time.

p.s the routine is getting filmed by a camera crew, so it will be seen… for all those that have asked. J

Love Jack.
